RAIN MARS CAMP
DOUGLAS VISITPeople Forced To Remain In
Coaches On Side Tracks
Sunday

Camp Douglas, Aug. 13.—Thousands of visitors from all parts of the state were marooned in coaches on a side track at Camp Douglas Sunday for several hours before a steady drive of rain abated enough to permit them to detrain and strike for camp.

The day was spoiled for most of the visitors, for, after arriving at camp, intermittent showers kept them indoors or under improvised shelters. Many were glad to return to the train.

The rain abated a bit at 2 o'clock and one or two hours was given over to visiting. Had the day been fair it is believed the largest crowd of visitors in the history of Camp Douglas would have been assembled here.

Special trains were run from Milwaukee, Madison, Merrill and La Crosse.

Only necessary duties were attended to and the cavalry and non-denominational services by Chaplain Stearns at 10:30—the rest of the day was given up over visiting. The transformation of the men from the perspiring, toiling brown-skinned youths of the week, to spick and span, shiny-faced youths in trim suits, washed or laundered was in itself a sight. Everyone expected visitors and what time could be spared Saturday was given over to polishing boots, leggings and washing clothes. The company bars were overworked.

The men are looking forward to at least one more Sunday here.

ACTIVE WEEK IN
FARM LAND SALES

C. P. Crosby reports that he sold two houses in the city this week in the new River Side addition. He is starting to build two more houses, and they will be ready in about thirty days. He also reports a very good week in farm land, having sold to the following customers:

E. J. Muzzy, Milwaukee, 80 acres. Fay Muzzy, Milwaukee, 40 acres on West Horsehead Lake. Frank C. Taylor, Chicago, 40 acres. John M. Davis, Chicago, 40 acres. These parties drove up from Chicago in their own car and spent several days here, looking over land and they are more than pleased with the crops they saw growing here. In all probability some work will be done on these lands this fall, and then in the spring they will all be at work, clearing and preparing to farm.

WORK FIGHT OR
GO TO JAIL

Work, fight, or go to jail, are the orders which Chief of Police Straub will issue to all "floaters" who arrive in the city to spend their time in idleness. In a communication from the state council of defense, Chief Straub is informed that there is a great shortage of labor in Wisconsin, and that every effort should be made to see that those idle from choice are forced into employment.

"Give the loafer a chance to enlist," are the orders of the defense council. "The country needs fighting men. Then give him a chance to work. If he will not do so, send him to jail, and let the sheriff keep him busy there. We must not tolerate idlers."

GETS 30 DAYS

In Municipal court Monday forenoon Judge C. F. Smith sentenced George Card to thirty days in the county jail for assaulting a fellow employee at the C. C. Collins Lumber company's mill. Card was captured Saturday in the Soo line yards after he had given Sheriff Hans Rodd a lively chase. It was only when the officer declared he would shoot that the fugitive gave himself up. Card's home is said to be in Menominee. It is intimated that jail walls are not strange to him.

BUYS PACKARD CAR

While in Milwaukee a few days ago Dr. A. D. Daniels purchased a Packard touring car which is one of the classic cars ever brought to Rhinelander. Dr. and Mrs. Daniels and son, Joe, drove up from Milwaukee in the car Saturday.

BE BIG BROTHER
TO A SOLDIEREach Of Us Can Render A
Service To Some Boy At
The Front

Here is how to be a "Sammy Backer":

You must be a man. You must be above draft age. Secure the name of a soldier boy, and write to him, telling him what you propose to do.

You must be willing to fulfill the gentle obligations and privileges undertaken, by sending your "Sammy" letters, magazines, birthday remembrances, Thanksgiving boxes or any other small thing that will make easier for him the task of fighting for you. Probably the most important items will be tobacco.

This will be with a clear understanding that there is no financial consideration of any kind involved, and that the whole thing is a purely private arrangement between yourself and your "Sammy."

If you are a man over draft age, you are probably not fighting.

But you want to help.

Why not take one of the Rhinelander boys who are going to the front, make him your "Sammy" and give him the backing that lies in your older head and your assured position back home?

Do you see the plan?

Do you see how it lets you serve the man who's serving you in the army?

Why not be a Fairy Godfather to a Rhinelander "Sammy"?

Your "Sammy" may have a father and family, but it won't hurt him to have also another and an older man as friend and advisor. Many Sammys have a mother, father, wife or family who are interested in them, but there is a void in "Sammy's" life that only a true "Sammy Backer" can fill.

Red Cross, the war department and other agencies are going to do things for "Sammy" too. But you can give him that personal backing that no organization can give. You can work here and send him magazines, Thanksgiving boxes, Christmas and birthday presents, "smokes" and the thousand and one other little things that will readily suggest themselves.

Perhaps you can help still his worries if he gets anxious about the family he left back home.

He's not going over to France right away, that Rhinelander "Sammy". At least all of him isn't going. Most of him is going into training camps. When he does he will need his "backer."

He'll need a lot of little things to make the sudden shift in his life more bearable. And they will be things that no reasonable man could expect state or nation to furnish.

Here's where you come, if you're a "Sammy Backer."

This Hi! Hi! Hurrah! patriotism is alright too, but let's get down to brass tacks. Here's something definite you can do.

And it's a man's job too.

Won't you be a "Sammy Backer?"

EAGLES TO HELP
BUY MOTORCYCLE

On Thursday evening, Aug. 23, Rhinelander Aerie 359 F. O. Eagles will give a dance at the Armory. The net proceeds from which will be added to a fund now being raised for the purchase of a motorcycle for Company L. Hazel M. Crawford orchestra will furnish music for this party.

George DeBoyle and Fly Counter, who generally have charge of all Eagle entertainments, will look after arrangements and it is a safe bet that nothing will be neglected to contribute to the enjoyment of the occasion. These boys are all ways there when it comes to showing patrons a good time. Also the cause is a worthy one; everybody should help Rhinelander's soldier boys get a motorcycle. Here is a chance to do your mile.

WILL WINTER SHOW HERE

J. B. Rotnour, proprietor of the Florida De Voss theatrical company, spent the forepart of the week in this city. This was Mr. Rotnour's first visit here in many months. He said that the show business up to about three weeks ago has been poor, due to the inclement weather, but is now flourishing. It is his intention to winter the Florida De Voss company in Rhinelander.

DANCE AT PLUM LAKE

On Saturday evening, August 18, a dance will be held at the Plum Lake Pavilion at Sawyer. La Broche's orchestra will furnish music. Make the trip in your auto; a good time promised. The pavilion is managed by Ernest Allon.

SEVEN RHINELANDER BOYS
ARE MADE LIEUTENANTS

In the awarding of commissions at the officers' reserve training camp at Fort Sheridan, Ill., seven young men from this city were among the successful candidates. The first training camp at Fort Sheridan closed Thursday after a three months course and the commissions were made public Saturday.

First lieutenantcies were given to Spencer Brown, son of Mr. and Mrs. E. O. Brown, and Adolph Dalsen, son of Mr. and Mrs. Alfred Dalsen.

Lieut. Brown is a graduate of Shattuck Military School, Fairbault, Minn., and Lieut. Dalsen received military training as a member of Company L.

The following were appointed second lieutenants: Chris. Laugeson, Arthur Davidson, Bradley Taylor, Jeff Redfield and John Wesley Laugeson. Wesley and Taylor will be assigned for duty in the infantry service. Redfield will be in the field artillery and Davidson in the regular army.

THIS CITY MAY
GET CONVENTIONDelegation Will Try To Induce
City Officials To Meet
Here In 1918

The convention of Wisconsin city officials, which was to have been held in Racine this week, was postponed until the last of this month when Ex-President Theodore Roosevelt will be able to attend and deliver an address. Owing to other engagements Mr. Roosevelt could not attend the convention at this time and its postponement was deemed advisable.

Rhinelander will send a large official delegation to the Racine convention in an attempt to secure the next meeting for this city in 1918. Now that this city has ample hotel accommodations there is no reason why it should not make an ideal convention city. The Rhinelander officials, headed by Mayor Grant V. Clark, will exert every effort to convince the delegates that this city is the right place for next summer's gathering.

TANKS TO BUILD
NEW GARAGE HERE

Work will be commenced soon on the erection of a new garage building on the site of the old Fuller Hotel on Stevens street. Frank Tank of this city and his brother, Alfred Tank, of Milwaukee will own and operate the business.

Concrete will form the construction of the building, which will be 50x60 and fireproof. It is expected that the structure will be finished by November 1.

Frank Tank is proprietor of the Universal Garage on W. Davenport street. He is a skilled mechanic and has a vast knowledge of automobiles. His brother, Alfred Tank, is an expert automobile designer and for many years has been in the employ of the A. O. Smith Company of Milwaukee. The brothers will make a good team.

The firm has just obtained the local agency for the Buick cars and will also keep a complete stock of everything in the automobile line.

NEW ARMY TO
CAMP SEPT. 4

Mobilization day for the drafted new national army, set for Sept. 1, may have to be postponed. Provost Marshall General Crowder stated that the new date probably will be Sept. 4.

The first hint of difficulty over Sept. 1 was that the following Monday was Labor day. The intervening Sunday also is a period of heavy travel on railroads. To add to the difficulties of moving the first group of 637,000 conscripts from the 457 local boards at practically the same hour, Crowder was told that many national guard regiments probably would be moving southward about Sept. 1.

WAR BREAD AT SQUIER STORE

A loaf of war bread baked at Camp Douglas is on exhibition at the Squier store. The loaf was brought from Camp Douglas by Mrs. E. G. Squier. The bread is said to be of delicious flavor and is relished by the soldiers. Two pounds is the weight of the loaf.

Mrs. Squier says the boys at camp are getting plenty of good substantial food and are becoming fat from the fare. Ole Olson, company cook, is rated as one of the best cooks at camp.

HART & GERBER
FORM NEW FIRM

Hart's Basy Store is now under new management. D. H. Hart, who has for the last five years successfully conducted a dry goods business at 31 S. Brown street, has taken a partner in the person of his son-in-law, Julius Gerber of St. Paul. The new firm will be known as Hart & Gerber and a fine line of men's and boys' clothing, as well as ladies ready to wear, dry goods millinery and shoes, will be carried in stock.

Mr. Gerber, who for twenty years has been in the clothing business, part of which period he was head salesman for the St. Paul Clothing Company, will devote his personal attention to the clothing department of the store. He promises to give the men and boys of Rhinelander the best in that line the market produces. The famous House of Kuppenheimer clothes will be featured. Mr. Gerber comes highly recommended by the St. Paul Clothing Company as a wide awake, scrupulous young business man who has a wide knowledge of clothing and is thoroughly reliable in all his dealings. He will prove a substantial addition to the mercantile life of this city.

At present several improvements are being made at the store, including a beautiful plate glass front and interior changes. The new stock will be received within a few days and the firm expects to be prepared for business by September 1.

It is unnecessary to introduce Mr. Hart to the people of Rhinelander. The five years in which he has been in business here has assured the public that he is a merchant of a high standing, ready and willing to do the square thing by his patrons at all times.

KIMBALL FAMILY
HOLD REUNION

There is being held at the homes of Seth Kimball and Mrs. Elizabeth Brush, this city, a reunion of the Kimball family. Brothers and sisters who have not seen each other for many years have assembled for this occasion. Those present from away are: Mr. and Mrs. Roy Ryer and two sons, Gary, Ind.; Mrs. J. Y. Potter, New London, Mass.; Daniel McKenzie, Boston, Mass.; and Frank Kimball, Washington, D. C. John Kimball, another member of the family, is expected from Leroy, Minn., this week. This is Mrs. McKenzie's first visit to Rhinelander and some of the family have not seen her for over thirty years.

CROFOOT BUYS
STORE BUSINESS

Adam Schliesmann has sold his grocery store at 1 W. King street to Charles Crofoot, under-sheriff of Oneida county, who will reopen the business as soon as improvements at the store are completed. Choice meats as well as high grade staple and fancy groceries will be on sale. Mr. Crofoot's sons, Ward and Kenneth, will be in charge. These young gentlemen are well versed in the retail meat and grocery line and under their supervision the business should prove successful. High quality and low prices, combined with prompt and courteous service, will be their aim.

DR. CONOVER ENTERS SERVICE

Dr. John Conover of Rapid River, commissioned as a first lieutenant in the U. S. army medical corps, left Thursday night for Ft. Benjamin Harrison, at Indianapolis, to report for duty. Dr. Conover is the first Delta county man above the draft to be called into the service after volunteering his service.

Dr. Conover was formerly located in North Grandon and is well known in Rhinelander.

MAY LEAVE FOR
WACO SATURDAYReported That Company L
Will Be Among Troops To
Go South

Mrs. E. G. Squier received a telephone message from her son, Edward, at Camp Douglas Wednesday night, stating that Company L will leave for Waco, Texas, Saturday.

Camp Douglas, Wis., Aug. 14.—Unless orders to the contrary are received, eleven organizations consisting of more than 1,000 men, will leave Camp Douglas Saturday morning to prepare the cantonment at Waco, Tex., for the remainder of the Wisconsin National guard. Announcement of the units selected to move first has not been made.

The hour of departure and the route to be traveled will remain a military secret as a war time precaution to the men. Commanders of units which will comprise the camp building expedition have been notified and the soldiers are preparing to leave. The main body of the guard may remain here several weeks. Saturday's departure of the camp builders indicates work will be rushed on the southern camp.

The men who have been selected to make the trip will be glad to go, judging from remarks of soldiers it will mean new scenes and new work.

Announcement from Washington that Company E, Fond du Lac Co., E. Oshkosh, and Co. G, Appleton, of the second regiment of infantry have been selected as the first units here to go to France, has not been confirmed by officers in camp.

The officers are not in a position to say that three companies from the second infantry will make an early departure for France, neither are they in a position to say why these units have been selected. Whatever information comes to them on this subject is regarded as confidential with the war department.

It is believed here that in the near future the American army will be re-organized on the basis of the French army to avoid confusion when Uncle Sam's men are sent to relieve the French. The present strength of a division in France is about 10,000 men less than an American division, and news dispatches from Washington indicate that our divisions will be reorganized on the basis of the French forces.

This leads to the impression that the three companies selected from the Wisconsin guard may be made part of one of the reorganized divisions in France. On this point, however, officers here are not free to speak.—Fred C. Sheasly in Milwaukee Sentinel.

BACK YARD ROW
ENDS IN COURT

A back yard row had its culmination in Judge C. F. Smith's court when Inga, Sophia and Chris, Nelson were fined thirty five dollars and costs for assaulting Emma Larson.

Transportation of nice, fat potatoes from one yard to the other via the hand route was given as the cause of the disturbance. After the mix-up the Larson woman had a warrant issued for the arrest of the Nelson trio. In the court room neighborhood troubles were again being raked over the coals when Judge Smith put a stop to the proceedings by imposing the above fine.

INDIAN FAILS
TO REGISTER

Eight alleged registration dodgers, arrested in the western district of Wisconsin, received sentences of from one day to thirty days in county jails from Francis E. Baker, United States district judge from Goshen, Ind., in federal court at La Crosse, Monday. Some were foreigners who could not read or write the English language. All have been registered. The men were George Allen, Greek, Superior, one day; James Armstrong, Lac du Flambeau, Indian, ten days; Robert Bobec, Russian, Marathon county, one day; George Gies, German, Tomahawk, twenty days; Charles Kotes, Wausau, thirty days; Mike Rimor, Polish, Ashland, ten days; Oscar Schulte, German, Merrill, one day; and Tom Spolarizer, Austrian, Chippewa Falls, one day.

POSTPONE BAND CONCERT

Owing to several of the members being in Camp Douglas the weekly concert of the Rhinelander City Band was not given Wednesday evening. Director E. K. Reik says that the usual program will be given next Wednesday evening.

ONEIDA FARMERS'
VISIT WINNEBAGOOneida Delegation Inspects
Holstein, Guernsey And
Jersey Herds

(By W. D. Juday)

Twenty Oneida county farmers, headed by Agricultural Representative Juday made a two day visit to Winnebago county last week. They arrived at Oshkosh Tuesday noon and were taken in cars furnished by the Oshkosh Chamber of Commerce and Winnebago county farmers to visit the principal dairy farms near Oshkosh. Holstein, Guernsey and Jersey herds were inspected. At the last farm a milking machine was seen in operation. This machine had been used for a year and a half and had given satisfaction the entire time.

On Wednesday forenoon we visited more Guernsey and Holstein herds between Oshkosh and Rockland and had dinner at the Rockland Hotel. After dinner we were taken to the Gillette Holstein farm where Colantha 4th Johanna made her world's record of butter fat. This is probably the best Holstein herd in the state. Most of the cows had records of over 30 lbs. of butter for one week and an average of over 100 lbs. of milk each day for the same time. Mr. Gillette gave us her full record of production and the life history of each cow and breeding.

From Gillette's Holstein farm we went to the Guernsey farm of M. L. Welles. Fourteen years ago Mr. Welles started his pure bred Guernsey herd and now it numbers upwards of 10 animals. A more uniform herd can not be found anywhere. Some of the best Guernsey cows in the state are found in this herd. A sire valued at \$6,000.00 being used.

From the Welles farm we went to the Guernsey farm of Chas. Hill. Mr. Hill was one of Wisconsin's first Guernsey breeders and has done much to get this breed of dairy cattle so well established in this state. He has probably sold more Guernseys than any other one man.

From the Hill farm we went to Oshkosh and took the train for Rhinelander.

The goal that this trip did to those 20 farmers and to Oneida county generally cannot be estimated. Each man came back with new and better ideas which he was resolved to put into practice on his own farm. Probably the one thing noticed most was the care of the calves. Those dairymen there realized that if they expect to get a mature animal of any value they must begin with good care and feed as soon as the animal is born and continue this good treatment. Their young calves are fed grain as soon as they will eat it and get a liberal quantity through their growing period.

Another thing that attracted the attention of our farmers was the fact that pure bred animals were costing no more for their keep than grades or scrubs and yet the value of their offspring was several times as great. Several in the party already have one or more pure bred females for foundation stock and still others are planning to procure a start as soon as possible. As a result of the trip three pure bred sires and seven pure bred females will soon be shipped to the county. We can expect more to follow. If we are going to feed cows, let's take our feed on the most profitable kind.

The success of this trip will fully warrant our making a similar excursion next summer and every farmer wishing to better his livestock conditions should let nothing keep him from going along.

ARREST MAN FOR
ILLEGAL VOTING

Roy Howard of Harshaw was arraigned in municipal court on the charge of illegal voting. Nathan Black of Harshaw is the complainant. The defendant entered a plea of not guilty and the case was continued until Friday. Bonds were fixed at \$500 which he furnished.

COMISKEY GOES THRU HERE

Charles Comiskey, owner of the Chicago White Sox and one of the most prominent figures in the baseball world, and Ban Johnson, another noted baseball celebrity, passed through Rhinelander Saturday on their way to Chicago for a sojourn at Mr. Comiskey's private summer lodge, Camp Jerome, near Mercer.

Donald McRae, who attended the officers' school at Fort Sheridan, arrived home Saturday. Don was ordered to report to Company L and left Wednesday for Camp Douglas. Don is a favorite among officers and men and the company is glad to receive him.

"The Best Floor Covering I Ever Had"

It is *entirely* waterproof. Water does not decay even the edges. And water getting in underneath does no harm to the fabric.

Respect Floor Covering is 100% waterproof. It's well to remember that when a long-wearing, economical floor covering is wanted for kitchen, pantry or hall.

Costs no more than linoleum. Many attractive patterns.

Let us show this new waterproof floor covering.

NEWSY NOTES OF NEARBY TOWNS

Ironwood—
Solomon Lefter, a spry young lumberjack of eighty-one years of age, went to Munising from Davenport & Underhill's camp and after the fashion of his kind he made the rounds. A trifle leg weary he sat down on a settee at the Munising House, and dozed off. As this is against the rules, the proprietor, Edward Beaudoin, woke him up and informed him he could not sleep there. "I can't fight much but I can do a pretty good job of carving," replied Lefter, whereupon he took out his knife and slashed Beaudoin across the face, his breast and thru the muscles of his left arm. Lefter is now in jail. What he regrets most is having his father and mother, aged 103 and 102 years respectively, hear of the escape of their young son.

Hurley—
Jessieville, Ironwood's troublesome suburb was the scene of another shooting affray (Wednesday) when a man named Victor Gurka shot and perhaps fatally wounded his niece, Josephine Vlah. Gurka had brought the girl from New York about three weeks ago to keep house for him and became angered because the girl was to leave his employ and get married. He had a quarrel with the prospective bridegroom, Joseph Mosal, during the day and at five o'clock in the afternoon the quarrel broke out anew and Gurka started shooting and shot five times at the girl, four of the shots taking effect. Gurka fled after the shooting and was captured several hours later by officers in a swamp two miles south of Jessieville and later confessed to the shooting. The girl is in the Newport hospital and it is thought her wounds will prove fatal.

Rice Lake—
Mrs. Jenny Kaulson of this city received word from the Swiss embassy that her son Edmund was in Switzerland suffering from tuberculosis. On Friday she received word that the son had arrived at some American port, coming over on a French warship. Edmund was in Berlin studying music when the war broke out. He had a splendid engagement in one of the Berlin theaters and not being ready to leave with the other Americans interned. He suffered so severely with privations, one of which was lack

of food, that he was near a collapse, so the German official in charge permitted him to leave, saying: "Might as well let him go, he will starve to death anyway." Edmund, it is said, is too weak to talk but will tell what happened to him and what he saw in Germany when he becomes stronger.

Park Falls—
The Roddis Lumber & Veneer company has concluded deals for the purchase of 6,200 acres of timber land from the Porter Land company of Wausau and 920 acres of like land from the Birkenwald heirs of Milwaukee, the former tract being in 42, 2 east and the latter in 43, 1 east Iron county, this state. This increases the company's holdings of timber land to approximately 30,000 acres, enough to keep the company's manufacturing institutions, a veneer mill in Marshfield and a saw mill in Park Falls, supplied with raw material for the next 20 years.

Ashland—
The old side wheel steamer Emerald, which has lain on bottom in one of the slips in the west end of the city, for 25 years, is being raised by John B. Wandless of Duluth. Although the part of the boat which is above water is nearly rotted away, the hull is reported to be in good condition. Loosened planks are being nailed back and holes being covered preparatory to pumping the water from her. The experiences which the Emerald has gone through since her construction over half a century ago have been many and varied. It was the Emerald which carried the Ashland expedition on its salvaging trip to the Pewabic in Thunder bay. It was on that expedition, backed by local capital, that a Frenchman, Pelky, lost his life in an attempt to recover some of its cargo of copper. When the boat is raised she will be dismantled and converted into a scow.

Iron River, Wis.—
Fred Simons, the asphasia victim who was found starving near Half Moon lake, a short time ago, committed suicide by drowning Friday. After Simons was rescued from starvation he was sent to the Heritage farm near here, until provision could be made for caring for him. After the return of his memory, Simons showed no signs of mental trouble until Monday, when he seemed despondent. Mrs. Heritage kept close watch on him, but he slipped away yesterday and Mrs. Heritage found a small boat empty in the lake. Mayor Daniels and a physician answered Mrs. Heritage's call for help and they dragged the lake. They found Simons' body after an hour. A heavy chain was wrapped around his neck.

ONEIDA TEACHERS GET STATE AID

Receive Checks For Teaching Two Years Or More In One Place

F. A. Lowell, County Superintendent of Schools, has been notified that the teachers whose names appear below will receive the state aid for continued service in the same district. Those serving the second year will receive two dollars a month from the state; those serving the third year receive four dollars a month; and those serving more than three years in one school receive eight dollars a month.

The law was amended by the 1917 legislature so that hereafter it will apply only to the teachers who are teaching in one room rural schools. That was the intention of the author of the law when the bill was drawn two years ago and many teachers in this county have profited by his mistake.

Following is a list of Oneida county teachers who will receive state aid. The list was made up wholly at the recommendation of the county superintendent:

Arlyle Anderson	\$17.82
M. V. Boyce	36.28

Moved by Ald. F. Pecor, seconded by Ald. Goldstrand that all the bills that are not properly O. K'd, be referred to the Board of Public Works and that they be held up until they are properly O. K'd by said board. Carried.

Moved by Ald. F. Pecor, seconded by Ald. N. Pecor that the balance of the bills be allowed as recommended by the Comptroller and that the proper officers be instructed to issue orders in payment of same. Carried, all voting aye.

Report of the Rhinelander Land was then read, and upon motion of Ald. Caldwell, seconded by Ald. Hafner that the report of the land and also the band committee be accepted and placed on file and the band be allowed the sum of one hundred and twenty dollars for the months of June and July. Carried, all the Aldermen voting aye except Ald. Noble, F. Pecor and Skubal.

A communication from Levi Geiger and several others asking the city open up Balsam street in Hill side addition was read. Moved by Ald. F. Pecor, seconded by Ald. Fletcher that the communication be referred to the Board of Public Works and they to act as they see fit. Carried, all voting aye.

Moved by Ald. F. Pecor, seconded by Ald. Caldwell that the chair appoint a committee of three (3) to investigate the advisability of purchasing the lots numbered fifteen (15) sixteen (16) in block three (3) in West Park Addition to the city of Rhinelander, and this committee is hereby empowered to act in any way that they see fit. Carried, all the Aldermen voting aye.

For such committee, the chair appointed the following Aldermen: A. C. Danielson, William Gilligan Jr., Robert D. Caldwell.

Moved by Ald. Wight, seconded by Ald. Fletcher that the City Attorney is hereby instructed to take up the matter of placing a flagman at all the grade crossings in the city, with the two railroad companies, also have a cement walk on Oneida Avenue laid, and have other crossings planked in proper shape. Carried, all voting aye.

Moved by Ald. F. Pecor, seconded by Ald. N. Pecor that the matter of establishing a grade on N. Stevens street be referred to the Board of Public Works and they to act as they see fit. Carried, all voting aye.

CARRY GOODS, SAVE MONEY

"I never knew it was so easy to trade at the Cash and Carry Store" said a Margaret street lady to her neighbor the other day. "For years I have been having my groceries delivered and running a store account and was beginning to think there was no other way to trade. Then, the Cash and Carry opened and, on the advice of my husband, I skipped down there with a market basket one day and not only did I get good quality groceries, but saved 35 cents on a \$2.00 order. I found it no hardship to carry the goods home and have been doing so every day since. You see—in stores that trust and run delivery wagons you have got to pay for what the dealers lose on bad accounts and also the extra cost of delivery. The Cash and Carry has no book accounts and no delivery system and therefore can sell cheaper. It is the duty of all economical housewives to trade where they can get the best groceries at the cheapest price and I think that the Cash and Carry is that place in Rhinelander."

PERSONAL AND SOCIAL

There is more Catarrh in this section of the country than all other classes put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The recent report of the Department of Agriculture advises us that there will be a bumper crop of potatoes this year. The department estimate is about 452,000,000 bushels this year as compared with 285,000,000 last year. The yield of oats will be large according to the

government estimate and the yield of corn is also said to be unusually heavy. However wheat is a scant crop and the people are advised to use substitutes as far as possible to help ease up on the wheat consumption.

NEW ONEIDA FARMER
Dr. V. J. Smith and family accompanied by Mr. and Mrs. Kinder and Bert Beck, all of Eldora, Iowa, arrived Saturday to become permanent Wisconsin residents although they are obliged to state, to be identified with Oneida county instead of Vilas. A year ago on a visit to the Jonker families here Mr. Smith purchased 1072 acres of land in the town of Sugar Camp, ten miles southwest of Eagle River, and his coming now is for the purpose of fencing the tract, putting up farm buildings, clearing land and in other ways providing for the handling of 500 head of cattle, and later a big drove of sheep. All Iowans happily have the art of farming learned ere they move to another state and Oneida county may count itself lucky in securing another well to do settler for that desirable part of that county.—Eagle River Review.

A WORD FOR MOTHERS

It is wrong for mothers to neglect their aches and pains and suffer in silence—this leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build up your strength.

Scott & Bowee, Bloomfield, N. J.

A group of men were discussing the size of some vegetables they had seen. The first remarked: "My brother grew a potato that was so large that he had to build a special copper to boil it in." The second said: "I knew a chap who grew a cabbage that covered half an acre of ground." The third declared that he had seen a vegetable marrow big enough to make a cradle. The last remarked: "I can outdo that, for I once saw two policemen asleep on one beat. How's that for growing?"—Clipped.

THE NEW NORTH
The New North Printing Co.
Entered at the Postoffice at Rhine-
lander, Wis., as Second Class
Mail Matter
AUGUST 16, 1917.

"For the cause that lacks assist-
ance;
For the wrong that needs resist-
ance;
For the future in the distance
And the good that we can do."

LAW SUPPLEMENTS
The New North has a limited
number of the 1917 Law Supple-
ments, containing all the new laws
enacted by the last legislature.
While the supply lasts one of these
supplements will be given to any
reader who calls for same at this
office.

Oneida county people wish to do
everything possible to assist in
the Oneida county fair, Sept. 4 to 6. Secretary Arthur Tay-
lor suggests that a booster trip
advertising the fair, be made thru
all parts of the county. Everybody
who owns an auto would be urged
to get in line and go on this trip.
The Rhinelander City Band would
be engaged to head the procession
and give concerts at every stop along
the route. Literature advertising the
fair would also be distributed. Mr.
Taylor's suggestion is a mighty
good one and should be put into
operation.

We understand that the legisla-
tive committee appointed to in-
vestigate the national, state, coun-
ty highways of Wisconsin, would
be glad to come to Rhinelander and
investigate our right to direct
highways from Antigo direct to
Rhinelander and on north and
from Merrill direct to Rhinelander
and on to Eagle River. We think
the people of the city and county
should get busy and do everything
in their power to urge the commit-
tee to visit Rhinelander so that
we can push our claims to these
highways. We are in just sympathy
with the highway question and
want a net work of highways all
over the county, but we think our
importance as a city entitles us to
consideration in this matter. Every
person in Rhinelander should do
his best to get the highway legisla-
tive committee here to investi-
gate our claims.

CONGRESS AND THE WAR
Things are not going very well in
Washington. Everyone at the cap-
itol knows this, even those who are
to blame. Much of the trouble was
inevitable. Commencing a war of
this magnitude with the machinery
left by the Bryan-Daniels anti-pre-
paredness league was a good deal
like trying to move a dreadnought
with the engine of an "autoped."
Trouble was to be expected, but
such a state of confusion as has ex-
isted in some departments was not
in the imagination of anyone who
thinks "American efficiency" exists
outside the domain of tavern ar-
gument and Fourth of July orato-
ry.

Many newspapers are silent. At
present it is not considered patri-
otic to criticize the Administration.
It is hard to select from the mass of
inefficiency piled up by the de-
partments specific instances of
enough importance in themselves
to interest a public that has not
awakened to the fatal seriousness of
the war. It is possible that it will
not be until some great calamity
overtakes the country that such oc-
currences as the protracted and dis-
graceful controversy in the Ship-
ping Board will seem more signifi-
cant than a comic row.

At the same time the fact is down-
ing on the minds of a considerable
part of the public that there have
been blunders and that these blun-
ders have cost the country much in
reputation, and may eventually cost
it more in the sacrifice of the lives
of our soldiers. In trying to identi-
fy the blunderer, the newspapers
find Congress is the easiest object
of attack.

It is big and impersonal and, as
a whole, unpopular. The newspa-
pers naturally report only the sill-
iest, which are also the most amus-
ing speeches on the floor. The
sound and honest work of the com-
mittees is neglected because it is
never spectacular. But it is only
justice to the members of the Sixty-
fifth Congress to say that close at-
tention to the record of the session
shows that they have risen to their
responsibilities with a degree of
unselfishness that is rarely found
in political bodies.

Partisanship has all but disap-
peared from discussion of impor-
tant measures.—Collier's.

W. & N. ROAD TO ENTER OSHKOSH

That the fourth steam railway to
enter Oshkosh will be the Wiscon-
sin and Northern appears to be as-
sured. The projected extension of
the line south of the city has been
given confirmation by C. H. Hart
of Oshkosh, secretary and gen-
eral manager of the road.

The road is now in operation be-
tween the Wisconsin and Northern
junction near North Grandon and
Browns and an extension is now
under construction to Black Creek
fourteen miles north of Appleton.
The further extension southward
from Appleton and Necedah-Menas-
ta to Oshkosh will depend on the
business conditions in general.—

CUBAN HEELS TO BE VERY POPULAR

"Smart footwear is the term to
use in the shoes of the coming two
seasons," said K. B. Maxwell of the
Herbert Shoe Store. "The develop-
ing in larger centers of the 14.8
shapely Cuban heel to go on well
footwear has reached the point
where it can be safely termed an
assured style for Fall and for next
Spring. The sudden shift from Lou-
is heels to Cuban heels is a devel-
opment which might well be ex-
pected for the run on Louis heels
was phenomenally long and was
due to the desire for high, novelty
styles. Once the ideas of the public
changed from novelty and delicate
shoes to smart and wearable shoes
the change of type of heel was nat-
ural. Already the demand is being
felt and in some cases it will be di-
fficult to move some of the high
novelties of the summer run of
styles."

DEATH FOLLOWS FALL ON STAIRS

Injuries sustained in a fall down
a stairway Tuesday night, terminat-
ing in the death Wednesday morn-
ing, of Mrs. Ella Sargeant of Minn-
neapolis, who was visiting her niece,
Mrs. E. J. Sargeant, in the town of
Pine Lake.

Mrs. Sargeant was retiring to
her room on the second floor of the
Sargeant home when the acci-
dent occurred. Members of the house-
hold heard her fall and found her
unconscious at the bottom of the
stairway. A physician was secured
as soon as possible but nothing
could be done to aid her.

Mrs. Sargeant was seventy-eight
years old and a native of Canada.
She had been visiting her niece for
several weeks. Mr. and Mrs. E. J.
Sargeant accompanied the remains to
Minneapolis this morning for in-
terment.

MRS. JOHN WARD

Mrs. John Ward, wife of John
Ward, lumber inspector for the
Minneapolis Cedar & Lumber Co.,
at Gage, died Wednesday morning
at the family home on south side.
She had been ill many months with
dropsy. A husband, two daugh-
ters and one son survive.

The funeral will be held from St.
Mary's church Saturday morning.
Father W. A. Beaudette officiating.

Mrs. Ward was an old resident of
Rhinelander and her death is
mourned by a wide circle of
friends.

HE WANTED HIS "TIME"
A soldier asking for his "time"
with the explanation that he want-
ed to quit is the amusing incident
reported from the Grandon com-
pany, of which Leo Schoenhofen of
this city is captain.

The fellow was a lumberjack and
evidently under the impression that
Uncle Sam runs things the same as
in private life, releasing and pay-
ing off men per demand. He was
informed that his pay would be
forthcoming on pay day, but that
he will have to stick to his job un-
til his agreement for time of ser-
vices is fulfilled—three years.—

SEVEN NEW MAXWELLS
Seven new Maxwell touring cars
were lined up along the side of the
T. C. Wood Hardware company's
store Tuesday afternoon. The cars
were fresh from the factory and
presented an attractive sight. Three
of these cars have already
been sold here by the Wood com-
pany and deals are now pending for
the disposal of the other four.

MERCHANTS AT WAUSAU
E. O. Barstow, S. B. Gary, O. A.
Kelden and Arnold Mangerson,
members of the retail merchants di-
vision of the Rhinelander Commer-
cial club, attended the annual
convention of the Wisconsin General
Merchants association in Wausau,
Tuesday.

NEW OFFICERS HOME
Lieut. Adolph Dalsen and Lieut.
Arthur Davidson newly commis-
sioned officers, arrived from Fort
Sheridan today. It is said they will
be assigned for duty somewhere in
the west. Lieutenants Brown, Lau-
gessen, Taylor, Wesley and Redfield
are expected home the last of this
week.

A lieutenant colonel has an epau-
lette with three silver stars.
A general is exceedingly rare.
Thus far in our history there have
been only two. They were Wash-
ington and Grant.

HOW TO TELL OFFICERS
You can tell the rank of an Amer-
ican army officer by knowing that:

A second lieutenant has an epau-
lette with no bar.
A first lieutenant has an epau-
lette with one white bar.
A captain has an epaulette with
two white bars.
A major has an epaulette with a
gold leaf thereon.
A lieutenant colonel has an epau-
lette with a silver maple leaf.
A colonel has an epaulette with a
silver spread eagle thereon.
A brigadier general has an epau-
lette with silver star.
A major general has an epaulette
with two silver stars.

Prof. O. Kempe of Augustana Col-
lege was the guest of Mr. and Mrs.
John Swedberg Sunday.

Mrs. J. W. Swedberg and son,
Claude, of Minneapolis are guests at
the John Swedberg home.

OLD TIME MAIL

CLERK IS DEAD

After a long illness with dropsy death came to Frank Tucker at his home, 1336 River street, Saturday night. It was not known by the majority of Mr. Tucker's friends that his condition was serious and the news of his death came as a sad surprise.

Mr. Tucker was a native of Maine and was 60 years of age. About three years ago he moved to Rhinelander from the central part of Wisconsin and engaged in farming. He owned a farm property in the western end of this city. Twenty-eight years ago Mr. Tucker was a railway mail clerk, running into Rhinelander on the old Lake Shore & Western. He participated in the war of the rebellion and was active in G. A. R. circles of this state. He is survived by his wife.

The body was taken to Wautoma, the deceased's former residence, for interment Tuesday.

NORWAY.

The smuggling of bombs, infernal machines, and a variety of other explosives into peaceful Norway by the Germans has really shocked entire Scandinavia, and as to the Norwegians the sentiment is getting to be of the dozzed, lasting kind. The press of Norway reflects public sentiment to a degree which is not excelled in any part of the world. The following extracts from two Norwegian dailies may therefore be taken without even a grain of salt. The Christiania Aften-posten says: "Disgusting and terrible things have been discovered. They will cause abhorrence everywhere as an indication of the shocking degree of ferocity to which the world-war has been carried. These criminals who are imprisoned in Christiania are miserable tools who are paid if their schemes succeed, and are kicked and disowned if they fail. But a severe judgment falls on those men in leading positions who engage these social wrecks to commit secret murder." The Morgenbladet said: "One of the greatest—well, let us call it blunders, which the German diplomacy or the military leadership in Germany has ever made was to send a supply of bombs to Christiania in the trunk of an official German courier to blow up, at any rate, the last remnant of Norwegian good will. Representatives of the press were invited to see the explosives that were confiscated at 19 Møllergården, Christiania. There were 50 large bombs, 207 smaller bombs, 9 lumps of coal, 770 bottles of acids, cigarettes, lead pencils, plug tobacco, fountain pens, chunks of chalk, and other innocent looking counterfeits containing the most terrible explosives and the most ingenious mechanisms for sending them off." A very influential minority of the Norwegian people has been more or less friendly to the Germans during the whole war, but that minority has dwindled into a negligible quantity as a result of the recent bomb plots.

Dr. J. Fitchner, the German Antarctic explorer, who discovered Prince Regent Luitpold's land in 1911, has acted as the leader of the German spy system in Norway. Doctor Fitchner, however, escaped to Germany before the Norwegian authorities were able to accumulate evidence warranting his arrest. The German explorer arrived in Norway during the early part of last winter and stayed for a while in Christiania, trying to establish "suitable connections" for a new press bureau. He soon transferred his field of activity to Bergen, where he started the press bureau with the help of several Norwegians, tempted by the splendid remuneration promised them by the German agent. The office of the bureau had been the headquarters of all the German spies operating along the western coast of Norway, and information gathered through its efforts has been directly responsible for the destruction of many Norwegian merchant ships.

The American government's control of exports has resulted in an absolute embargo on cargoes destined to the Scandinavian countries and Holland. Since the control was made effective not a cargo has been licensed for shipment to these nations. The policy enforced is described as temporary, to be changed as soon as it is possible to put the neutrals on a rational basis. Despite submission of much information by the diplomatic representatives of the neutrals affected, the government considers it lacks convincing evidence regarding exports from these countries to Germany, and wants to take no chances of permitting American goods to go through to the enemy.

The house on the Kokvold farm in Arund must be charmed, for it has been established beyond a doubt that no person has died in that house in the course of 132 years. A local newspaper has published a complete record of all the people who have lived in the house since 1775. Anders Jamt-sold is the present owner of the farm.

A furious storm made a hopeless wreck of the Norwegian-American line steamship Kristianstad, which ran aground near Cape Race recently. The crew, numbering 250, was forced to abandon her.

The Norwegian mission to the United States, headed by Fridtjof Nansen, and Acting Secretary Polk of the State Department and arranged for them to visit officials on a work-study tour, or the importation into Norway of the study needed by that country will be presented to President Wilson later.

His Majesty King Haakon VII. of Norway has no doubt been offered a reward for information received from a spy in Sken, Norway.

SWEDEN.

It was in December, 1914, that the postmaster general of Sweden sent Sixten Toernblad, a young assistant who had made himself known as a man with punch, to Karungi to organize an efficient system for the exchange of mail between Sweden and Finland. Before the outbreak of the war the international postal routes to and from Russia were running through Germany and Austria and the exchange of mail at the border between Sweden and Finland was therefore of a purely local character. The Swedish postal authorities were completely taken by surprise when a never-ceasing flood of packages and letters began to pour into Karungi from the Finnish side of the border. There was absolutely no proper facilities for taking care of this enormous increase and the result was the most chaotic conditions. Especially packages were piled up in thousands and the postmaster general of Sweden was bombarded with complaints about long delays. The tremendous work of assorting all the mail at the beginning had to be done under the open sky at a temperature of about 40 to 50 below zero. When the day's work was finished, a side-tracked railway coach furnished the sleeping quarters—clerks of all ranks sleeping side by side. In spite of the northern "world postmaster" in Karungi, the railroad ended in this village. The transit post office then followed the road as its construction moved forward toward Haparanda and the border. This period was especially trying. The postal clerks and carriers were living a real primitive life out in the open woods. Two hundred and fifty sleighs had to be mobilized every day, and the drivers had to sleep at remote farm dwellings. More than one battle with hungry wolves was fought during these nerve-racking days. The summer was now approaching and often the postal clerks began their work in the morning, with the ground covered with frost, only to find themselves in water up to their knees by noon. This was a strenuous life, and more than one man had to be sent south for a period of recreation. But Toernblad held out at his post. The railroad is now open for traffic to Haparanda, where the transit post office is located in a comfortable wooden building of its own. The mail from Russia is now received over a cable line, one mile long and running over Torne river, which constitutes the border line. Days of hardships are now something of the past. The modern technique has triumphed. The name of Toernblad will always be linked with one of the most remarkable performances in the history of the Universal Postal union. The mail for the prisoners of war in Russia, Germany and Austria-Hungary constitutes a considerable part of the postal transit traffic through Sweden. During the years 1915 and 1916 about 4,100,000 packages of this kind passed through that country. Sweden has done all this work free of charge, which means an economic sacrifice on the part of the public treasury amounting to approximately \$1,000,000.

At a special business meeting the Stora Kopparberg Mining company resolved to contribute \$40,000 towards building a church for the employees living at Bergslagsstuna. But it turned out that the workmen of the place did not want any church, for the time being, at least. An agitation was started to have the offer declined, the main argument being that the acceptance of the offer would compel the people of the community to put up an expensive church. The question was to be decided at a business meeting of the parish, and the workmen appeared in large numbers. They made arrangements for a formal parade, and marched up to the place of the meeting, two red banners being carried at the head of the procession. After a two-hour heated discussion the offer was declined by a large majority.

A. Westfelt, a Swedish engineer, has invented a hand saw for cutting down trees. The saw itself is a chain running in a fork-shaped steel frame, and is worked by means of a motor. The whole apparatus weighs only 150 pounds. About 1,200 saws have been sold during the year, and it is praised wherever used. By means of a "sector"—this is the name of the instrument—a man can cut down 150 trees and saw them into logs in a day. The trees may be cut so close to the ground that an average of almost half a cubic foot of wood for each tree can be saved in this manner.

DENMARK.

A woman in Mogenstrup lost \$20 last spring, but she could only guess that it was stolen. Not long ago she received a letter from Copenhagen containing \$21 and thanking her very politely for the loan. The polite borrower neglected to write his name.

German submarines and mines are responsible for the loss of 190 Danish ships.

Important improvements are to be made at the public market of Kjellerup. The Krabbe monument is to be surrounded by a row of granite blocks, connected by a chain of great historic interest. The chain was part of the outfit of the Dannebrog, a warship commanded by Ivar Hvitfeldt, the famous naval hero, and which was blown up October 4, 1710, in Kjøge bay.

"Women's War Work"
(Contributed by a woman)
Sir: Granting the truth of your recent contention that play is essential to the maintenance of our mental stability and vigor, I maintain that work is equally important to the average American woman. And, at last, we have an economic world whose need of workers coincide with the needs of our bodies and minds.

Industry needs workers and people need to be industrious. Today the factories and farms and printing companies are not turning off workers and applicants. The old sign, "All Positions Are Filled," is covered with dust; the "Help Wanted" sign is working overtime. We are no longer harassed by the sight of scantily clad men and women traveling from door to door in quest of work. We pitied these creatures with starving bodies. Work may be a factor in saving us from the fate of being equally pitiable with starving minds.

We need work for the same reasons that we need play; to keep our minds healthy and active; to divert us from agonizing worry over our sons, our husbands, and our brothers at the front. We need diversion—and diversion of play along with not suffice. Work active and absorbing, will prove our mainstay in the strain which we who remain at home must undergo.

We need more than a few hours a day of knitting or bandage-making; we need steady, relentless work, work which will leave us so bodily and mentally weary at night that we cannot dream. Work is one of the best balms for the harassed mind.

SAVING FOR THE NATION

With our country at war, economy of necessities becomes the duty of every patriotic citizen. If every family in the United States cooked on a MONARCH Range, thousands of tons of fuel daily would be saved for other useful purposes.

That the MONARCH Range needs less fuel to do its work is not an empty boast but an actual fact that we can demonstrate so that anyone will see it as plainly as we do. The reason lies in the manner of its construction—its seams and joints are made tight without stove putty by riveting the steel plates to the Malleable Iron castings. That means permanent, not temporary tightness.

And the most delightful part of it is that in this case true economy goes hand in hand with all of the things you want most in a kitchen Range—perfect baking, continuous satisfactory service, handsome appearance and time-saving convenience.
